## MORE ABOUT ME

An Application Manager with 4 years of experience in the FX team in Commerzbank Singapore. Excellent technical and communication skills combined with strong analytical, design and problem solving skills to the benefit of customers.

I am passionate about ground breaking technology, always keen to learn more about Cloud Computing and the DevOps practices.

I am certified in AWS Solutions Architect, Red Hat System administrator, Scrum Master as well ITIL V3.

Excellent SQL, Shell and Python scripting skills. Proven track of highly successful projects development in terms of design, implementation, automation and running of lifecycle tasks for real-time low-latency applications.

Able to communicate effectively at all levels and able to work on own initiative or within a larger group including during crisis situations.
